THE MONEY TREE'S SECOND MAIL BID SALE

Our second mail bid sale has something for everyone's numismatic interest.

For those interested in U.S. works, we are especially proud to offer volumes 7-20 of The Numismatist from the Norweb estate. We are offering important large format Chapman auction sales, important Mehl sales and numerous Mehl's Numismatic Monthly, many scarce early Kosoff sales, and long runs of AJNs, and The Numismatist. In addition to significant individual works such as an 1851 Eckfeldt and DuBois and an 1860 Snowden, there are also numerous scarce and popular periodicals, auction catalogues, and individual numismatic works.

For those of an ancient medieval, or foreign bent, this sale offers an outstanding selection of scarce and popular standard references in unusually fine condition. Featured are Jenkins' Ancient Greek Coins, an extensive run of ANS monographs, and an extensive offering of important Glendinning sales: among them such famous collections as Lawrence, Ryan, Sydenham, Lord Grantley (complete), and Lockett I and II. Also offered are many sales from important German, Dutch, and Swiss auction firms.

The quality of the offerings is due to the confidence our consignors have shown in us by letting us offer their numismatic literature: Armand and Kay Champa, Mr. Charles (I can't bring myself to call this venerable gentleman, Charlie) Wolfe, Ingrid Smith, and some anonymous numismatists who have confidence in us, but who really don't want anyone else to find that out.

We had difficulty in cataloguing this sale because there were so many fascinating items, we spent our time reading and coveting our neighbor's numismatic literature instead of writing this catalogue. We're still experimenting with our style (to use a term loosely). We hope we have improved this catalogue so that we haven't made the same mistakes as before. After all, there are so many new mistakes to be made; we can hardly wait.

In the words of Cal Wilson, "Good hunting".

Sincerely,

Myron Xenos - Owner and President of The Money Tree, ANA member since 1961, life member of Penn-Ohio Coin Club, NBS, ANS, High Potentate.

Ken Lowe - Editor, ANS, EAC, NBS, ombudsman, scribe, Lowe Potentate.

TERMS OF SALE

1. This is a mail bid auction sale. All lots will be sold to the highest bidder. Bids will be treated as limits and lots will be purchased below the maximums (really!) where competition permits. Lots will be sold on the day indicated.
2. Seven (7) % state sales tax will be added to the cost of all lots delivered in Ohio.
3. Mail bid auction sales are not approval sales. No lot may be returned without written permission, and such permission must be requested within three (3) days after receipt of lots. By submitting your bids you agree to the Terms of Sale herewith set forth.
4. Bidders unknown to us must supply acceptable credit references or a 25% deposit to assure entry of their bids.
5. All postage, insurance, and shipping charges, however, will be added to invoices. There will be a 50 cent charge per lot for packing and processing.
6. Terms of sale are strictly cash in United States funds. Payment must be made immediately upon notification or upon receipt of material.
7. Lots to be mailed to addresses not in the United States or its Territories, will be sent only at the risk of the purchaser. When possible, insurance will be obtained; it must be noted, however, that adequate insurance is often not available by surface mail.
8. All books are as described. We acknowledge the possibility (slgh!) of errors and typographical mistakes, and any errors on our part will be cheerfully corrected. We cannot, however, be responsible for your errors; please check your bid sheet carefully.
9. Title to all lots remains with the cataloguer until paid for in full. We reserve the discretionary right to withhold delivery of lots until full payment has been received. We reserve the right to reject any bid from any bidder which we deem is not made in good faith. We reserve the right to reject any bid which, in our opinion, is ridiculous.
10. THERE WILL BE A TEN (10) % BUYER'S FEE ADDED TO ALL LOTS.

CONSIGNMENT A

PERIODICALS

1. American Numismatic Society. PROCEEDINGS OF THE A.N.S. But for 1955, 14 consecutive from 1948-1962. 12mo. CaC. Each about 65 pp. Each proceeding offers reports from each of 15 ANS committees: U.S. Coins, Greek Coins, Roman and Byzantine, Latin American, Medieval, etc. Valuable information in a scarce run; the 1948 and 1949 are particularly elusive. Conditions average better than Fine. (25.00)
2. THE CANADIAN NUMISMATIC JOURNAL. Volumes 1 to 6 complete (January 1956 to December 1961). 12mo. CaC. From 256 pages for Volume 1 to 526 pages for Volume 6. The successor to the C.N.A. BULLETIN, published since 1950. Bowman on Canadian patterns; Willey and Ferguson on tokens; Allen on Canadian currency; Buck on Canadian banking; Bowman on Bouquet Sous; Gingras on Canadian large cents; Willey on PEI, New Brunswick, Lower Canada, Upper Canada, and Nova Scotia numismatics. The information contained in these is largely unavailable elsewhere, in addition to these early volumes being legitimately scarce. Volume two is holed for a binder; Volume 6 is complete in 11 issues. The condition is Fine to Near Mint. An altogether attractive set. (150.00)
3. THE CANADIAN NUMISMATIC JOURNAL. Volumes 8 and 9 (1963 and 1964) complete in 24 issues totalling 1084 pages. 12mo. Cac. Bowman's monthly series on Communion Tokens covering 24 issues including a rarity table for 276 varieties. Except for rust on the staples (isn't that a resort outside London?), Near Mint. (20.00)
4. THE CANADIAN NUMISMATIC JOURNAL. Volume 15 (1970) complete. Carroll on New Brunswick currency; Remick on Andaman Islands coinage; Griggs on Newfoundland; excerpt from Ross on B.C. gold coinage. Remember, the CNA has infinitely fewer members than the ANA so the CNJ is not so ubiquitous as its American counterpart. VF. (10.00)
5. MASON'S COIN AND STAMP MAGAZINE. 17 Issues from July 1867 (Volume I, Number 4) to November 1869 (Volume III, Number 11). First the bad news: these are research copies, most are completely disbound (but complete), and brittle with major chipping. Now the good news: it is quite unusual to find such a run of this periodical pre-1870 in ANY condition. These journals are replete with history, important information, and most importantly for giving an immediacy to numismatics after the Civil War (or War between the States for our Southern friends). Notes: a 1799 cent was traded for a \$40.00 diamond pin; a Mass. collector sent in \$5.00 (in 1867!) for an annual subscription; an (for you syntax mavens) history of American coinage, especially colonials and 1793 cents; announcement that the Mickley sale "will be the most important that ever occurred in this country. The catalogue will be the guide hereafter for pieces and prices;" the analysis of Cogan's Mackensie (sic) sale, America's first plated coin sale which was issued at \$3.00. This is the period which fostered the fathers of American numismatics. These are delicate, but extremely rare and quite desirable American numismatic incunabula. (150.00)
6. THE NUMISMATIC SCRAPBOOK. 1940 (Volume 6) complete. 16mo. Green cloth, gilt. 648 pp. Of note: Bluestone ad of quality Large Cents; Charles Barber on dies; monthly series, Early Coinage Acts of Congress; Ted Hammer's summary of Crosby; Restrike dollars of 1801 and 1804; Pennington's series on ancients; Judd on Patterns; and first bank of the United States. These pre-WWII NSMs (yep, that's the abbreviation) are genuinely scarce and in major demand. Fine. (40.00)

7. THE NUMISMATIST. 1911 (Volume XXIV) complete. Octavo. Blue cloth, gilt. Of note: Ramsden on modern Chinese coppers and coinage of Japan; I.D.C. (?) 8 pp. on coins of Syracuse (nobody ever writes about the coins of Utica); Markham "Early Colonial and American Money", 7 pp. similar to Steigerwalt's guide; Mc Lachlan reminisces about his early collecting experiences in Canada. Edgar Adams was a regular contributor. Binding weak, two pages unstapled, but barely noticeable. Still, a most pleasing VG. Important. (60.00)

8. THE NUMISMATIST. 1913 (Volume XXVI) Complete. Octavo. Blue cloth, gilt. Wraps removed. Of note: Comparette on Syracusan dekadrachms (Is that like the Princess and the Pea?); Newcomb on Morgan Dollar Varieties, 1878-80 (Just think of the implications for collectors had he continued in this vein; why unslabbed Morgans might actually be collectable; McLachlan on Canadian patterns, important; the first nine parts of McGirk's important series "United States Cents and Die Varieties 1793-1857"; Adams on Feuchtwanger (sounds vaguely titillating); 2 important pages "A New Variety of the Higley Coppers"; Hamer's 16 page "The Farthing and Halfpence of the 18th Century Token Period"; Nelson's important 16 page "The Coinage of William Wood for the American Colonies". An immensely important volume. Beautifully bound, near VF. (80.00)

9. THE NUMISMATIST. 1918 (Volume XXXI) complete. Octavo. Blue Cloth, gilt. Farran Zerbe reports on Pan-Pac coinage; Hamer on 18 century English tokens; important lecture by Wurtzbach, 6 pp. "Numismatics Facts and Fancy"; Allen's monthly series on Confederate States currency; Thomas Elder's later reprinted 14 pp. ANS lecture "Medals and Tokens of Henry Clay"; Storer's important 30 pp. series "Numismatic Bibliography of the U.S."; Ross' important 10 pp. monograph, "Classification of New Jersey Cents". Note: the 1918 A.N.A. convention in Philadelphia was postponed due to an outbreak of influenza. Beautifully bound, near VF. Important. (70.00)

10. THE NUMISMATIST. 1920 (Volume XXXIII) complete. Octavo. Bound with paper tape at spine. Wraps bound in. Of note: a series by Storer on Naval medals of W.W.I.; "Trial Pieces of St. Gaudens \$10 and \$20"; many articles about inflation in Europe. From A.N.A. President Wormser, "As a rule, [a boy] is not looked upon with favor by the dealer. He does not have much money to spend on coins, and he may take more time in making his selections than the amount of the sale warrants." Ah, the more things change.... Front and rear covers show heavy rubbing, contents VG. (20.00)

11. THE NUMISMATIST. 1921 (Volume XXXIV) complete. Octavo. Red cloth, gilt. Wraps bound in. Of note: "Mark Newby and his Patrick Halfpence"; "A Finding List for 1801 Cents"; "The Eagle Cents of 1857"; 4 articles about countermarks on U.S. Coins; "Recut Dies of U.S. Half Cents". Covers lightly rubbed at extremities, otherwise Fine. (30.00)

12. THE NUMISMATIST. 1926 (Volume XXXIX) complete. Octavo. Green cloth, gilt. Wraps removed. Includes the important Bryan Money issue. Also of note: Wismer series on obsolete currency; Jetons of Nuremberg. Ex-Libris Eastman Memorial Foundation in Laurel, Miss. Despite soiled covers, Fine. Important. (40.00)

13. THE NUMISMATIST. 1938 (Volume LI) complete. Octavo. Blue cloth, gilt. John Jones (?) 6 pp. on 1804 dollar; monthly articles about fractional currency and U.S. Army medals; reprinted biographical sketch of Geo. Heath on 50th anniversary of The Numismatist. Rubbed at extremities, weakness in binding. (15.00)

14. United States Government. ANNUAL REPORT OF THE SECRETARY OF THE TREASURY ON THE CONDITION OF THE BANKS IN THE UNITED STATES AT THE COMMENCEMENT OF THE YEAR 1863. December 22, 1863. 12mo. Purple textured cloth, faded and rubbed at extremities. Spine faded. 225 pp. Charts. Of great value for the collector of obsolete currency. Important for implications of Civil War upon coinage and currency. Scarce. Contents sound, near Fine. (35.00)

The soft covered pre-1960 Charltons are genuinely scarce and are on the top of want lists we have. Their actual rarity has yet to be determined, but their prices have increased geometrically in the last year. Both covers with vertically bisecting fold. Covers show some soiling. VG. (10.00)

16. 1956 CATALOGUE OF CANADIAN COINS, TOKENS, & FRACTIONAL CURRENCY, 4th EDITION. 12mo. Grey CaC. 36 pp. Ills. Vals. We have found this scarcer than the third edition. Typed label neatly affixed to top front cover. Covers lightly soiled. Better than VG. (15.00)

Original brown cloth, gilt. 72 pp. 5 plates. Especially important for section on gold from California (the 49ers were only two years earlier) and a listing of emissions of private gold. The titled section refers to part one; the second part by Du Bois, "A Brief Account of the Collection of Coins Belonging to the Mint of the United States, more particularly of the Antique Specimens", is an important annotated monograph of the mint's Roman holdings. Scarce and quite important. Spine and edges professionally repaired with cloth, most attractive. Contents near Fine. (100.00)

Of note: Despite this being referred to eponymously (neat word, huh?), Snowden acknowledged that George Bull, recently put in charge of the Mint cabinet, assisted by Du Bois, prepared and arranged this book. Also of note, this was the first occasion of the chromolithographic process for coloring the embossed colored plates in American printing. Spine badly chipped. Covers rubbed at extremities. Binding absolutely tight and sound. Contents Fine. A perfect candidate for the binder's art. (120.00)

MAX MEHL LITERATURE

=====

MEHL'S NUMISMATIC MONTHLY was published from 1908 to 1919 in 10 volumes. Mehl suspended publication after the December 1911 issue because of his plans to move his business to New York City "to attain the success which I have every cause to believe my efforts deserve." Evidently, a good dell was no substitute for Texas chili; he soon returned to become Fort Worth's shortest Lithuanian national legend. The MONTHLY resumed publication with the January 1914 issue, the beginning of Volume V. George Kolbe, in his 1984 sale with Spink, wrote:

An underrated source of information, the Monthly is especially rich with word sketches of turn of the century American numismatists, often accompanied by individual or group photos. Complete sets are very scarce.

We are fortunate to offer a long run of this infrequently offered periodical.

CONSIGNMENT H

NOTE: The following grouping of Glendining and Sotheby auction catalogues features some of the finest collections and scholarship in English numismatics. Many of the complete collections are rarely offered. The following group contains many catalogues and collections amateurishly, crudely, but durably bound in green boards and cloth tape. In most cases the sales' covers were all removed, with the names glued onto the green boards. Also bound in are the auction sales invoices of one "John Nott" (whom we surmise is directly culpable for these [sneer] bindings). The individual catalogues are all sound, VG to VF. If the buyer desires, any competent binder could rebind them inexpensively. Of course, Alan Grace could turn them into works of art.

330. The 7 important 1950-1951 Glendining & Co., Ltd. sales of The Late A. LAWRENCE, Esq., R.C.S.. [1]: ENGLISH COINS (Gold), Part I. 5/17/50. 20 pp. 177 lots. 4 fine plates. The complete Lawrence collection is rarely offered and is eagerly sought. Lawrence, born in New York, became a legendary figure in British numismatics, being a mentor of Sydenham, Brooke, and Mattingly. Of special note is the English sale, Part II, "unique in the annals of auction history", which offer his unequalled English medievals. It was also mentioned that cataloguing this portion of the sale was particularly challenging as his labels and tickets got displaced during the war (I don't specifically recall being involved, though the occurrence would be typical of me). The catalogues are each Fine or better. (150.00)

331. Glendining & Co., Ltd. The Late A. LAWRENCE, Esq.: The Important Collection of English and Roman Coins, Parts I-II (Roman) and III-IV (English). 12/7-8/50, 1/17-19/51, 7/11/51, 11/28/51. The sales total 205 pp., 1429 lots of Romans, 856 lots English, and 12 fine plates. Each of the copies is a Post-Sale priced edition with Parts II-IV also being named. Scarce and popular. The four sales average Fine condition. (50.00)

(I know that the date sequence does not correspond to the numerical order, but remember they don't drive on the correct side of the road, either.) All have the covers bound in, but sale [3]. Ryan's collection was "comparable only with the fine collections which were dispersed at the early part of the century." Of note: his collection of Charles I "is probably the finest ever assembled by a private collector." Also remarkable and extensive Roman gold, Augustan denarii, and superb Hadrian brass. The catalogues are each Fine or better. (150.00)

333. Glendining & Co., Ltd. (three important sales) [The Late REV. E.A. SYDENHAM] Catalogue of the Roman and Greek Collection of Coins. 11/24/48. 123 pp. 983 lots. (with) [PROF. EMIL LAJOS JONAS] Catalogue of Greek, Roman and Foreign Coins. 1/18/49. 23 pp. 234 lots. 4 fine plates. [DR. H. MAYR-HARTING] The Important Collection of Roman Gold, Silver and Bronze. 11/15/49. 39 pp. 335 lots. 8 fine plates. All covers are bound in, but for the Sydenham front cover. Sydenham, a giant in Roman Republican scholarship, is eulogized by Leonard Forrer who catalogued his magnificent collection. The Mayr-Harting collection is of great significance. The catalogues grade Fine. A most desirable group. (60.00)

From the foreword by Leonard Forrer (no lightweight himself), "[Grantley] was universally known as one of the foremost coin collectors of our times. He was a keen competitor over Anglo-Saxon and Early English coins with such great competitors as Montague, Murdoch, Sir John Evans. His rarities in Northumbrian, Anglo-Saxon, early Norman and Baronial coins were the envy of his co-collectors."

CONDITION: no sale is worse than VG, with most being Fine. The plates Fine.

ESTIMATE: were these sales properly rebound, they would be expected to bring over \$350.00. Because the purchaser will want a binding worthy of this set's rarity and importance, our estimate... (200.00)

[With] The Late GEORGE HENRY ABBOTT: Collection of Greek, Roman, British & Foreign Coins, Etc.. C-S 5030. 10/10/51. 60 pp., 674 lots, 10 fine plates. Another of the collecting giants lionized by Leonard Forrer, "ranks amongst the best formed since the Sir Arthur Evans Cabinets [1889, 1898, 1911]." Particularly important for Roman Republican coins. Only Hall I has the front covers bound in. (Ad Nauseum). The individual sales are nearly Fine and should be rebound for aesthetics' sake. (85.00)

340. Glendining & Co., Ltd. LT.-CO lots. SIR GODFREY DALRYMPLE WHITE, Bart.: Catalogue of War Medals and Decorations. 7/24-26/46. C-S 15516. 89 pp., 735 lots priced in ink, 8 fine plates. Well-catalogued and documented. "The collection is now one of the oldest in the country having been begun by [Dalrymple in] 1889." Contents Fine. Covers intact and appear Fine, but because of removal from a Nott binding, glue and tape are affixed to backstrip. (25.00)

"The fine array of tokens...are without doubt the finest collection ever formed, easily surpassing any other collections in museums or private hands." OF NOTE: "His collection was largely used for illustrations in the books by Dalton and Hamer, and he collaborated in the publication of the book." With the popularity of English tokens, a most elusive catalogue. The condition is as the above lot. (30.00)

342. Glendining & Co., Ltd. The Late H.E.G. PAGET, I.A. (Ret'd): A Valuable Collection of Crown Pieces of the British Isles. 9/25/46. C-S 9806. 49pp., 554 lots priced in ink, 27 fine plates. Extremely well-provenanced. Simon's Petition and Reddite crowns, 20 1551-53 crowns, 24 Commonwealth crowns. Most impressive for varieties, proofs, patterns. Another Ex-Nott removal, this has neither cover, with binding tape and glue at backstrip. Contents sound, nearly Fine. (30.00)

Thus bringeth a mercifulleth endeth to Nott's Folly. The following important sales are completely original lots.

343. Glendining & Co., Ltd. The Late V.J.E. RYAN, Esq., First Part: English and Scottish Gold Coins. June 28-30, 1950. 66 pp., 583 lots, 20 plates. This is one of the Post-Sale Priced, Named copies; after most sales Glendining & Co., Ltd. sold catalogues that had the prices printed in the margins and included the names of the buyers. Obviously, these are of great utility and are eagerly sought. The first 556 lots are all English gold from Henry III to Charles II. 22 lots of Scottish gold. Excellent provenancing. Backstrip chipped at bottom otherwise Fine. (50.00)

344. Glendining & Co., Ltd. The Late RICHARD CYRIL LOCKETT, Esq.: The Celebrated Collection of Coins. The First Two Parts: English from Ancient Britain to Charles II. C-S 6142*. Part I. The Lockett sales carry the same status as the U.S. Garrett sales, but cover a significantly greater historical period; there were 13 Lockett sales, including ancients. The cataloguing, provenancing, and reference material provided represent the epitome of numismatic auctions. Note: the gold coins were taken to Liverpool during the war where they were subsequently involved in a fire "which accounts for a few of them having an unusual colour (or toning)." The backstrip of the second sale catalogue is chipped for an inch at the bottom, otherwise each catalogue is Fine. Of the highest importance. (60.00)

CONSIGNMENT I

The following volumes are from the "Nott" lot of Glendinings in bindings (didja catch the double rhyme?). As numerous sales are bound within each volume, only the "important" sales and highlights will be listed, unless I can think of something rude. The conditions refer to the catalogues themselves because the "bindings" (yuk!), though sound, can be most charitably described as ugly, which is unfortunate because the sales, themselves, are most useful and in many cases important.

Mr. Nott did not only crudely (or "crudely" may be apt) bind Glendinings; he extended his generosity to the following run of Sotheby's, which differ only in his selecting blue boards instead of green.

366. A bound volume of 17 Sotheby sales from 1926 to 1935. 1/12/26, neat English hammered gold. F.W. Longbottom, 5/14/34, C-S 6143: important well-catalogued English hammered w/2 plates. VG. (35.00)

Still in "Nott" bindings, but of significance are the following 4 lots of Seaby's sales lists from November 1936 to November/December of 1946. These lists are rarely offered; many were recycled for the war effort as was all nonessential paper. These monthly lists later were essentially the Seaby Coin And Medal Bulletin although they were not so named until 1946.

374. A bound volume of Seaby Monthly Lists for 1937 and 1938, complete in 23 issues (July/August 1937 was a combined issue). The lists are numbered from 274 to 297, with no # 294 ever issued. In the same format as the Bulletin. This group lists about 16,000 English, ancient, and world coins for the period. These are elusive, in demand, and rarely offered in complete years. Remember the historical importance of this period for the monarchy. Each issue is defect-free, averaging Fine. (75.00)

375. A bound volume of Seaby Monthly Lists for 1939, complete in 9 issues (nos. 298-308). July/August was a combined issue (so no #306); "We regret that owing to war conditions and most of our staff having been engaged on some form of national service..." so no September or October lists were issued (a flimsy excuse if ever we heard one). A particularly scarce volume. Condition averages Fine. (45.00)

376. A bound volume of Seaby Monthly Lists for 1940 and 1941, complete in 18 issues (nos. 309-326). Several of the issues were combined, #318 was used for two issues. The comments relative to the war and the management of daily life deserve note. Rare. The issues are defect-free, VG or better. (75.00)

377. A bound volume of Seaby monthly lists for 1942 through 1946, complete in 18 issues (nos. 327-344). Because of some skirmish in Europe, their publication schedule was a bit erratic. The title, Seaby's Coin and Medal Bulletin, began with the December 1945 (#339) issue as "an experiment for the benefit of collectors, ... a forum for collectors." Because of the war, poor quality paper was used. A complete run for this period is quite elusive. Other than one page being taped (Scotch? English?), the issues are defect-free, VG or better. (75.00)

378. A bound volume of Seaby's Coin and Medal Bulletin for 1947, complete in 11 issues (nos. 345-355). Musings from the Bulletin editor, Christmas 1946, "We have been lucky enough to secure a turkey and wonder from which of the many friendly countries overseas it has come." VG (30.00)

379. We will accept one bid (if it is greater than the total of the lots individually) for the previous four lots of Seaby lists, a complete series from 1937 through 1947, nos. 274 to 355 (79 consecutive issues regardless of the numbering sequence). Because of the rarity of this offering, and its importance, we would recommend these issues be rebound attractively. The total of the estimates for the previous four lots...(300.00)

380. SEABY COIN AND MEDAL BULLETIN. 1948. The complete year bound in red cloth. Each of the volumes, from the Empire Coin Co. Research Library, has on the bottom of the spine a remnant of a paper label. The condition for each is Fine or better. (20.00)

The following grouping of auction catalogues are from major European auction firms. These sales are grand, glossy, large format catalogues which are well-catalogued and well-plated. The offerings are top drawer, featuring outstanding ancients, medieval, world gold, and specializing in the Germanic series. Don't let any fear of a language barrier hold you back; if you can spell ANA, you will find these invaluable. The catalogues are in at least Fine condition.

398. Bank Leu. 10 (of their 13 for the period) important sales of ancients from May 1973 to April 1982. Sales 6-7, 13, 15, 17-18, 22, 25, 28, 30. Incredible variety of high quality ancients Greek and Roman silver, with noteworthy Greek bronzes. These are definitely in demand. Fine. (120.00)

The first 7 catalogues offered are particularly scarce. Although the plates are halftones, Kricheldorf's are well thought of. The sales from this important firm are strong in ancients, and European medieval and modern coinage. Conditions average Fine. (125.00)

403. Munzen und Medaillen/Monnaies et Medailles (Basel). 5 early, important, and scarce sales. #6: 12/46, #7: 12/48, #8: 12/49, #12: 6/53, #15: 7/55. These sales dealt with outstanding Swiss, German, and medievals. Octavo with collotype plates. Spines chipped on each, o/w Fine. (100.00)

Because of delays caused by some arcane armed conflict, the report for 1939-1944 was issued in one volume in 1948. The invaluable numismatic information concerns changes in coinage, emerging nations, coins of the Commonwealth, medals, dies, and seals. Additionally, from 1950 on each volume contains plates of new issues, medals, and buildings. From the 1964 report by the Treasury Secretary, "Because of 1300 tons of these unhandy pieces [1964 pennies] and the likelihood of an even heavier burden for 1965, [We] may have driven the clothing industry to devising especially strong materials for trouser pockets. I was overjoyed to find [this] in a suit made recently for me. I shall be interested in its durability." Such a lengthy run is especially scarce and valuable. Each has an Empire Coin Library label on the front. The backstrips of the pre-1953 issues are chipped. Until 1953 each averages VG; from 1954 on, each is better than Fine. (100.00)

CONSIGNMENT K

LOT 410: (SEE PHOTO)

With the important series sales of the Norweb collection that Bowers and Merena are in the process of holding, we are proud to offer from the estate of Emery May Norweb the following bound 14 volume set of THE NUMISMATIST, complete from Volume 7 (1894) to Volume 20 (1908). This set originally belonged to her father, Albert F. Holden. In addition to having significant research value and being decidedly scarce, their distinguished pedigree also makes them most attractive.

HISTORICAL BACKGROUND: On page 67 of the just released THE NORWEB COLLECTION: An American Legacy written by Michael Hodder and Q. David Bowers, the authors reveal that Albert F. Holden applied for membership in the ANA in November 1908. The January 1908 THE NUMISMATIST acknowledged his acceptance; his membership number was 1123. Quoting from the chapter on Albert Holden:

Unfortunately, most of Bert's own library was dispersed between 1913, the year of his death, and the 1930s, when his daughter, Mrs. Norweb, resumed collecting coins. From what remains, however, and the scattered references to the titles lost, we can tell that Bert was advanced for his time, exhibiting a degree of numismatic sophistication uncommon in the early 1900s. [pp. 71 & 73] All in all, it was a respectable library for the time, and a very complete one too, as there were few other references available then. [p. 73]

Hodder and Bowers continue with a listing of the key reference works in Albert Holden's library from 1908 to 1912, [p. 75.] noting the inclusion of THE NUMISMATIST in Holden's library.

THE MONEY TREE ACQUIRES THE SET: Christie's of New York was selected to auction the contents of Katewood, the Norweb family residence in Bratenahl (a lakefront suburb of Cleveland) Tuesday, September 25, 1984. We went to the viewing of the manse's contents the previous Sunday. Since we were aware of the Norweb numismatic tradition, we immediately went to the library to see what books were being offered. The contents of the library were virtually all histories, novels, gardening and nature, with a 7 volume 1856 set of Audubon's BIRDS OF AMERICA. However, the second part of lot 508 was a significant offering; this was the listing: "Prime, W.C. Medals and Seals, New York, 1861, 4to, original cloth [and more importantly] -- THE NUMISMATIST, vols.7-20, Monroe, Michigan, January 1894-December 1907, 14 vols., 8vo, contemporary morocco." (Following this discovery, we looked everywhere for the first six volumes, assuming that the Norwebs would certainly have them, but we had no further luck.) At the Tuesday sale, we were in fact the successful bidders. We subsequently sold the set in February 1985 to our current consignor. We appreciate his giving us the opportunity to offer this set now.

DESCRIPTION: Written on the free endpaper of Volume 20 is the signature, "A.F. Holden. Bratenahl, Ohio". The 14 volumes are indeed bound in brown morocco and show rubbing at the extremities. It is apparent that this set was used, but carefully. The spine of Volume 14 shows heavier rubbing than the others. The front cover of Volume 19 is separated from the spine, but is still firmly attached by the original binding tape; the bindings of the others are sound. The contents are all completely sound and Fine. Complete documentation attesting to the pedigree of the set will be included.

ESTIMATE: Regardless of its impressive pedigree, this set is most desirable due to its essentially uniform, basically problem-free condition. Because of the importance of the Norweb sales, we have no doubt that everything with a Norweb ticket will bring extremely strong prices (deservedly so) for Bowers and Merena. Our estimate for the 14 volumes...(1000+)

A BRIEF DIGRESSION: in April this year, we mentioned to Mrs. Libby Norweb that we had purchased the set in the Christie's auction; she graciously said that she was pleased for us, indicating that they had not been aware that the set was included in the Katewood sale. We have heard an unsubstantiated rumor that Bowers and Merena will be auctioning the Norweb numismatic library in a later sale.

411. THE NUMISMATIST. 1888-1893, Volumes I-VI. The 1963 reprint by Olympic Press of Salinas, Kansas. Octavo. Red cloth. The reprint, in major demand, has become quite scarce. While this is desirable in its own right, combined with the Norweb lot above, this gives us the opportunity to offer the first 20 years of THE NUMISMATIST. Near Mint. (75.00)

412. Delmar, Alexander. GOLD MONEY AND PAPER MONEY. 1863. 12mo. Wraps. 42 pp. "The object of this little work is to determine the precise value of gold compared with that of other products of human industry, particularly paper money." In addition to Del Mar (as his name is usually recorded) polemic, this contains good information about English and colonial currency. Also quite scarce. Front cover slightly chipped. Backstrip split. Other than light foxing, contents Fine. (35.00)

413. Florange, Jules. L'AMOUR ET MARIAGE DANS LA NUMISMATIQUE. 1936. Octavo. CaC. Unopened. A cataloguing of 560 numismatic items pertaining to love and marriage. Written in French, but easy to understand. Popular. Nearly VF. (15.00)

Red cloth, gilt. 39 pp. 15 plates plus 2 unnumbered folding plates of National Currency. "Published for Eastman's College. Price 4.00" in gilt on back cover. On inside front cover is a notice dated April 20, 1869 stating that "This copy...is the Property of the Pennsylvania Railroad Company". The good news: the plates are all present and are most pleasing, and all the pages are present. The bad news: The covers are seriously spotted and faded; pages one through fifteen are nearly disbound; the joints are cracked. To be precise, this would qualify as a research copy. However, with all plates present and so nice, this is worthy of serious consideration. (60.00)

FOLLOWING IS A NICE OFFERING OF THE MORE DESIRABLE STACK'S SALES. WHILE THE DEMAND FOR THE EARLY SALES FROM THE CATALOG COLLECTORS SEEMS TO HAVE MODERATED, A CONSTANT DEMAND REMAINS FOR THE BETTER SALES FROM THE FIFTIES BECAUSE OF THE IMPORTANCE OF THE INDIVIDUAL COLLECTIONS, THE INDIVIDUAL RARITIES, AND THE QUALITY OF THE TEXT.

Prices and notations in text seem to indicate this was used at the sale. Each catalogues is Fine. (30.00)

A FEW INTERESTING LOTS

494. Ancient Coin Club of America. VOICE OF THE TURTLE (and other titles as the periodical underwent name changes). The first three volumes consisted of about 10 mimeo'd and decidedly scarce issues. The periodical contained much useful information for the collector of Ancients. Argonaut took over publishing this as a monthly in March 1965.

- A. Volume 1, 1962: 2 issues, No. 5, November; and No. 6, December.
- B. Volume 2, 1963: 4 issues, No. 1, January; No. 2, February; No. 3, March; No. 6, September.
- C. Volume 3, 1964: 3 issues - January, November, December.
- D. Volume 4, 1965: Complete in 12 issues.
- E. Volume 5, 1966: Complete in 12 issues.
- F. Volume 6, 1967: January, February, March, August (also March 1968)

The first six issues offered are mimeo'd and look positively amateurish; BUT, they also are vital, enthusiastic, and convey an obvious love of numismatics. Judging by the editorial comments, the number of subscribers was limited and the production schedule irregular. The articles deal with all aspects of ancients, including monographs by Malter and Laing among others. Though modest in concept, this is an eagerly sought journal. A run of even this quantity is rarely offered.

Also included within each issue beginning with the November 1962 issue are mail bid sales of ancients: nos. 5-9, 11, 13 (1/64) to 17 (5/65). The sales before 15 are unlisted in Gengerke. This was a most difficult lot to catalogue because I wanted to write up everything in each issue and found myself reading instead of cataloguing -- truly a compelling work. Conditions average Fine. For the 38 issues...(75.00)

495. Ancient Coin Society (Toronto). THE CORNUCOPIAE. (The first four issues). Volume I, Numbers 1-4. August 1972 to February 1973 and ? 1973. 12mo. Blue CaC. 66 pp. Ills. Also the first 5 Ancient Coin Society Supplements from August 1972 to March 1973: 20 pages of meeting minutes and photocopied news articles about ancients. Each issue features one monograph pertaining to ancients; scholarly though not obscure or stuffy. Scarce. VF. (20.00)

496. Hesperia Art (George Allen, Philadelphia). 36 of 43 illustrated fixed price lists starting from "Bulletin II-1957": Bulletins 2-7, 9-22, 24-27 (there are two #26s, but they are completely different - perhaps a numbering error) 29, 32-34, 37-43. Quarto. Self-covered. Each glossy issue averages 8 pages, 150 lots of ancients and antiquities, and 3 halftone plates. The ancients and antiquities are high quality. It is most unusual to find such an extensive run of this respected FPL. Important and in-demand. Although some are defective (but complete) having tears, and covers-off-but-present, about 30 are defect-free and sound. The conditions average VG. (45.00)

497. WORLD COIN NEWS, (18 of the first 19 issues). Volume 1 is complete is 7 issues from February 1974 (Volume 1, No. 1) to December 1974. The 13 issues of Volume 2 (January 7, 1975 to June 24, 1975) are consecutive but for the missing March 18, 1975 (Vol 2, No. 6) issue. WCN's first two issues were quarterlies; the next five were monthlies; Volume 2 was issued bi-monthly. Each issue averages about 80 pages. These are extremely nice condition for newsprint. The only damage shows minor edge wear and minor spine wear at the backstrip due to regular folding and due to the thickness of the issues. Because of the desirability of these issues we are trying to be as thorough as possible in describing their condition. A nearly complete early run is most infrequently offered. These are not fragile and are still fully usable. Being bibliophilically precise, the condition of the 18 issues is Fine. (75.00)

Foreign Auction Catalogues

Among our particular favorite areas of numismatic literature are foreign auction catalogues. The best of these have the most magnificent, historical, aesthetic offerings with nary a slab in sight. The European tradition of numismatics predates the establishment of the United States. Consequently, one can get a better perspective of our hobby, free from the vagaries of the short term promotions and fads, by viewing the numismatic panorama from their more mature, tranquil viewpoint. If you are a neophyte, don't let your Xenophobia (is that a fear of The Money Tree's owner?) prevent you from enriching your library, knowledge, and spirit. For the experienced collector, here are some desirable sales. Remember: many of these sales are bi-lingual, or otherwise easy-to-follow; the excellent plates are multilingual.
